

WHAT MAKES OUR JACKS STAND OUT ABOVE ALL THE OTHERS?

RUGGED CONSTRUCTION

- Our 300 and 800 series hydraulic cylinders come with **Double Acting Pumps**
- Our Base Plates are made from 11 gauge steel that has been **Laser Cut, Machine Welded, and Powder Painted**
- We use Galvanized Tubular Brace Assemblies that have been Hydro-formed for strength – **NOT STAMPED**
- Our Support Collars are made of Solid Steel –**NOT STAMPED**
- All of our jacks are assembled using **Premium Class 5 Hardware**

VERSATILITY

- All of our jacks are designed to function on a **Variety of Aircraft**
- All of our models are **Easily Upgradeable**
- All of our Multi-Height Models are **Easily Converted** in the field

STANDARD FEATURES

- **THREE LEG BASE PLATE**
Easily oriented to **Clear Landing Gear**
Our base **Stands Firmly** on uneven surfaces
- **LOCKING SAFETY COLLAR**
Friction Locks at any height
Easily Verified by lowering the hydraulic pressure
- **PUMP HANDLE STORAGE** provided on all models
- **TILT and GO WHEEL ASSEMBLIES** are standard on most models
- ALL RISER ASSEMBLIES and EXTENSIONS are made from **Heavy Gauge Steel** that is **Welded** and then **Powder Painted**

PROVEN DESIGN

- Alpha Aviation has been producing Aircraft Jacks for sale since 1995
- Most models have been available for many years, with **Over 4000 Units In Service World wide**
